

PIANCA

PEOPLE Cabinets design R&S PIANCA

PEOPLE Modernity and elegance, function and beauty, sophistication and simplicity: ambitious, superior quality combinations, designed to coexist in the People modular system. Wall panels, shelves, closed and open storage modules, desks, benches, free-standing or wall-hanging solutions, available in a multitude of different sizes and finishes. A wealth of highly customizable options to furnish every room in your home. People creates sophisticated, glamorous, fun or simple atmospheres, while serving any required purpose.

Its distinctive, sleek, simple linear design is made possible via mitre-folding, which produces panels cut at 45° to create structures with no edge joins or handles, developing the founding concept of continuity at the heart of the People range.

Every combination can add spacers, attractive contours that enhance the overall effect with a gold, bronze or titanium finish, or a choice of 20 lacquered colours and 3 wood finishes.

Limitless use of space is achieved with a single basic unit design, focussed on deciding every build construction detail with visual appeal and function in mind, as Pianca's patented C-shaped supports designed to obtain fully floating shelves demonstrate.

Mindful of the needs of contemporary people and ever faithful to its values, Pianca is back with People to offer the best in Italian style and manufacturing.

MODULES

Storage modules with drawers, available with interior accessories (multi-purpose drawertrays, cutlery trays and plate organizers in black ash, black faux leather mat); hinged door storage modules with recessed edge grip opening; flap door storage modules opening upwards or downwards; open storage modules with shelves and partitions; complements: tops, platforms, shelves and wall panels, Domino bench/desk, Ala desk and C bench.

Besides classic partitions, our patented metal C-shaped supports are available for interior use.

INTERNAL PARTITION

INTERNAL PARTITION

C SHAPED SUPPORTS

In modules W 100 to 180 cm with one front and W 240 cm with divided fronts, the internal partitions are replaced by metal brackets, thus obtaining an entirely open compartment: one drawer or one wide glass shelf for flap door modules.

BIRCH DRAWER STRUCTURE

WIRING

IR SYSTEM

It receives infrared signals from your remote controls and sends them to your components with no need to open the door. It is composed of a repeater, a receiver and a transmission bar inserted in one of the module compartments.

LED LIGHTS

Led lights can be applied to Pianca's modules, shelves and wall panels: 1.2 cm Led strips are used behind modules and panels whereas 3 cm spot-lights are used inside modules.
