

Essential

Francesco Binfaré

General description:

It is a primary sofa, contained in size. It is “flexible” because, thanks to the “smart” cushion, it can shape itself to all possible uses. It is adaptable, because it consists of several sections. It is cozy, to stimulate the encounter between people. In one word, it is elegant. Its elegance transcends emotion. It is objective, sober and essential.

Low, oblique, “bergère”, enveloping, high, for reading.

The smart cushion adapts to any aesthetic need and use with absolute simplicity.

Use:

The “smart” cushions, reclining at will by a slight pressure, give movement to the soft architecture of the sofa, enhancing comfort and functionality.

Different sections can be combined to get the right composition for each environment. Configurations based on simple geometry. Linear sofa for two, three, or four that enables angular solutions. Curve seats to draw half moons or semicircles. Square or rectangular ottomans and elongated seats, single or double, for compositions with chaise longue.

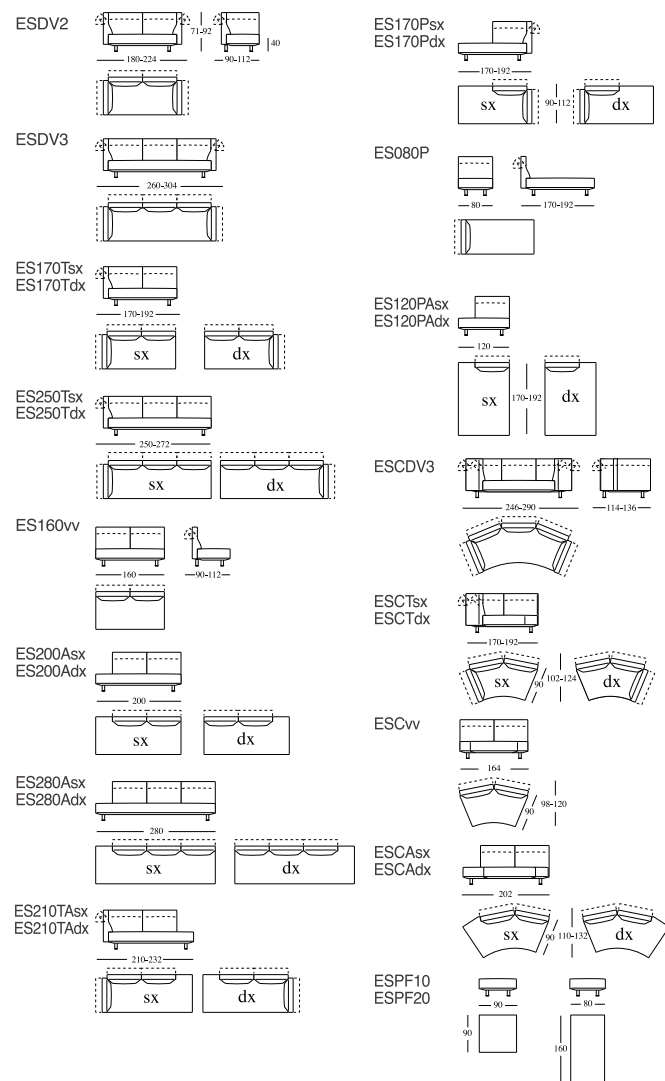

Technical description:

Steel frame with molded steel mechanisms.

Padding in different densities of polyurethane foam, Gellyfoam® and synthetic wadding.

Feet in molded ABS.

Technically removable cover.
