Sherazade

Francesco Binfaré

General description:

Rectangular sommier in extra sof Gellyfoam®, bedecked with soft elements: two pyramidal Thai cushions as backrest, internally weighted, with a special blocking material under the base, so that they can be freely placed on the sofa; two big squared cushions in down feathers; a cylindrical down feather armrest and a large rectangular cushion, also in down feathers. The project faces the historical oriental origins of real comfort, the one without any constriction.
Equally broad is the choice for the upholstery, which range over velvets to ecologic furs or lame, all arranged in color themes.

Sherazade "Odalisca"
Aesthetical version of Sherazade, Odalisca is inspired by oriental carpets.
Transferring the complex pattern to a modern loom took some 300 hours work.
The dens weaving is a mixture of traditional techniques like brocade and arras, combining different yarn ticknesses and textures. Odalisca is a limited edition available in 4 different colors and each article has the signature by Francesco Binfarè.

Use:

The different cushions of Sherazade, which can be placed as requested on the sommier, offer various and free comfort options: everybody has the possibility to create its own position according to the need, the mood and desires.
Without any structure and thanks to the elimination of front-back, left-right it offers many advantages and extraordinary performances:
- From formal seating to big bed
- From a formal face to face situation or laying to a lecture position
- From big daybed to each comfortable position you want to get.

Technical description:

Veneered wood structure.
Padding seat in Gellyfoam® and Synthetic wadding.
Padding for cushions down feather and/or polyurethane.
Removable cover.
On request, product can be realised also according to other regulations.
