

Vala series

Designed by Martin Lauritsen

Vala is a luxurious piece of furniture, designed with a perfectly finished form and cleverly hidden functions like storage and cable management. Three cable outlets underneath and a spacious drawer for your laptop, keys, notebook or jewellery – depending on setting – lets you easily organize and simplify your workstation. The desk is mounted flush to the wall with a concealed suspension, creating a simple and minimalist expression with beautifully handcrafted details in oak veneer.

Meet the designer

According to industrial designer Martin Lauritsen, a designer's most important task is to develop durable products. High-quality products that last for generations. In addition to creating value and joy in our everyday lives. "Good design is like good music. Both can create positive moods and emotions through their melodies, rhythm, shape, colour, materials and more. I find the emotional qualities that aesthetics can create very interesting, and this is a driving force in my design process, just as much as creating good functional solutions."
